If you are looking to redeem your equity loan via a house sale you must be aware that any arrears on your account must be cleared as part of the process prior to completion taking place. If you are unable to clear all of the arrears on your account by completion you may be able to sign an interest payment shortfall agreement to continue to settle the arrears balance. More details about this are available towards the end of this information pack.

If you are looking to redeem either in part or full but remaining in your property (staircasing) you must clear any interest payment arrears prior to starting the process.

1	Obtain a Valuation In order to produce a redemption figure for redeeming your loan, we will need a valuation for your property that has been conducted by a RICS (Royal Institute of Chartered Surveyors) Certified Surveyor. We do not endorse any particular companies; however the web link below may assist you in identifying a RICS Certified Surveyor: www.rics.org/uk Once a RICS Valuation Report has been generated, please send the report to Target. You must complete your transaction within a maximum of 6 months of the original valuation. The full valuation requirement list is stated later in this document; please provide your surveyor with a copy. Once you have successfully submitted a valid valuation report you will received an estimated repayment quote. Valuation Requirements

You will need to provide a valuation report. You will need to instruct an independent surveyor and pay for their services. You should instruct a Royal Institute of Chartered Surveyors (RICS) valuation surveyor to value the property.

To help you locate a RICS surveyor, please use this link: www.rics.org/uk

When instructing the RICS valuation surveyor please ensure you inform them that:

The Valuer must be registered with the recognised qualification of RICS.

The Valuer must be independent to an estate agent.

The report must be on headed paper, signed by the RICS surveyor and addressed to Target HCA.

The Valuer MUST provide at least 3 comparable properties and sale prices.

The comparables provided must be like for like in terms of property type, size, and age and within a 2 mile radius to the property that is being inspected.

The Valuer must not be related or known to you.

The Valuer must inspect the interior of the property and provide a full valuation report.

Valuations carried out for bank or mortgage purposes are not acceptable

A copy of the valuation report must be supplied to Target; the inspection date must be shown on the report.

If the valuation report does not meet the above guidelines, you will be required to liaise with the RICS valuation surveyor for rectification; any additional costs incurred for this will be your responsibility.

Please note: the RICS valuation will only be valid for 3 months. If the transaction does not complete within this time you will need to provide another valuation at your own cost. This further valuation can be a Desktop Valuation from the surveyor who originally inspected your property. It must be conducted and sent to Target within 2 weeks of the original valuation expiring and will only be valid for a further 3 months.

The criteria for this Desktop Valuation are:

The Valuer must refer back to the original report and confirm the updated report is a Desktop Valuation.

The Valuer must be the original surveyor from the first inspection. They do not need to re-inspect the property, but they must make reference to this original report.

The Valuer must provide at least 6 comparable properties and sale prices within the last year if the property has increased or decreased in value. If 6 are not available, your surveyor must state this clearly. Comparable properties used must be a similar house type

The report must have a new date on it and be signed by the Valuer.

The report must be on headed paper and provided in a PDF format or a non-editable document.

Desktop valuations will be allowed after the original valuation has expired for up to a further three months . If the desktop report expires and a total of six month has been reached and you are yet to complete the transaction you will need to re-inspect your property and a new RICS valuation report provided.

If it is considered that the valuation does not accurately reflect the market value, Target will contact you and may also wish to speak to your RICS valuation surveyor. This may result in

a revised market valuation. Target have the discretion where completion is imminent to approve one further month in exceptional circumstances.

Interest and Fees

If you are paying monthly Interest and/or a Management Fees, please continue to maintain your payments. Any outstanding payments due must be settled in full before a sale can complete or in the case of redeeming without a sale prior to approval of the transaction.

Fees can be paid by contacting us on 0345 848 0235 quoting your account number and the administration process you would like to proceed with. Please have your Credit/Debit card to hand as we will need full details to process your payment.

Further Information

Redeem: Repaying your loan when selling your property

Full Redemption

If you sell the property against which your loan is secured, you will need to repay your loan in full. This is also known as loan redemption.

The repayment amount you will be required to pay is calculated as a proportion (percentage) of either the current market value or the agreed sale price of your home (whichever is higher).

For example, if your loan at outset was 30% of the purchase price, with no part redemptions (staircasing) having taken place, the amount you will have to pay back will be 30% of either the current market value or the agreed sale price of your property (whichever is higher)

What happens if the market value is not enough to repay the loan?

If the market value of your property has fallen, you may find at the time of redemption you are unable to repay the loan in full.

Provided the market valuation you supplied is approved and you have met all the terms of your loan the Lender, will accept a reduced repayment. The amount is calculated by subtracting the outstanding balance on your main mortgage (excluding early redemption penalties) from the sale price or the market value of your property (whichever is higher). We will liaise directly with your solicitor to ensure the correct amount is repaid.

If there are any arrears of interest payments and/or management fees on your mortgage account you must clear these by completion (for a house sale, before approval to continue for a staircasing). For where there are insufficient funds from the sale of your home you can either make an additional payment to settle the outstanding balance or we will engage with you relating to a monthly interest shortfall agreement. You will still be required to repay the arrears in full.

Redeem: Repaying your loan without selling your property

There are slight differences, depending on whether you are repaying your loan in full or part and whether or not you are securing another loan on the property to make the repayment.

The term used for a part repayment of your loan is **Staircasing**.

Staircasing Full:

You cannot staircase if there are any arrears of interest payments and/or management fees on your mortgage account. Any arrears must be cleared, before a staircase transaction can proceed. You will need to have a valuation carried out on your home (see valuation details in this document) your redemption figures is based on the equity loan percentage of the determined market value.

Staircasing Partial:

You cannot staircase in part if there are any arrears of interest payments and/or management fees on your mortgage account. Any arrears must be cleared, before a staircase transaction can proceed. You will need to have a valuation carried out on your home (see valuation details in this document) your redemption figures is based on the staircasing percentage for example 10% of the determined market value.
